CORNGRID EA

TERMS & CONDITIONS AND RISK DISCLOSURE POLICY

Product Name:	CornGrid EA
Platform:	MetaTrader 5 (MT5)
Product Type:	Automated Trading Expert Advisor (EA)
Strategy / Market:	Smart Reverse Grid Recovery System (Forex / Gold - XAUUSD)
Developer / Brand:	CornGrid
Document Details:	Version: 01.02.05082026 | Effective Date: 12 July 2026 | Last Updated: 19 August 2026

> **LEGAL NOTICE & AGREEMENT BINDING:** This official legal document governs the acquisition, installation, operation, software licensing, and risk acknowledgement of CornGrid EA. By purchasing, downloading, installing, activating, or using this software, you explicitly agree to all terms, disclaimers, and risk policies herein.

SECTION 1 — TERMS & CONDITIONS

1. Introduction

This Terms & Conditions document constitutes a legally binding agreement between you (hereinafter referred to as the 'User', 'Customer', 'Licensee', or 'You') and CornGrid (hereinafter referred to as 'Developer', 'Brand', 'We', 'Us', or 'Our'), governing the access, purchase, installation, licensing, and usage of the CornGrid EA software application designed for the MetaTrader 5 (MT5) platform.

By accessing, purchasing, downloading, installing, activating, copying, or otherwise using CornGrid EA, you acknowledge that you have read, understood, and unreservedly agree to be bound by all the terms, conditions, disclaimers, and policies set forth in this document. If you do not agree with any part of these terms, you must immediately cease installation and refrain from using the software.

2. Product Description & Nature of Software

CornGrid EA is an automated trading software tool (Expert Advisor) built specifically for execution on the MetaTrader 5 (MT5) trading platform, utilizing proprietary algorithmic logic designated as a Smart Reverse Grid Recovery System, primary focused on Forex currency pairs and Spot Gold (XAUUSD).

CornGrid EA is solely a technical software tool designed to execute automated trading routines according to pre-programmed parameters and algorithms. CornGrid EA DOES NOT GUARANTEE PROFITS, SPECIFIC FINANCIAL RETURNS, TRADING PERFORMANCE, OR CAPITAL PRESERVATION. Under no circumstances should CornGrid EA be regarded, interpreted, or represented as a guaranteed-profit system, an investment program, a managed account service, or a financial product.

3. Software License & Usage Rights

Subject to your compliance with these Terms & Conditions and payment of applicable license fees, CornGrid grants you a limited, non-exclusive, non-transferable, non-sublicensable, revocable license to install and execute CornGrid EA on a designated number of MetaTrader 5 trading accounts or terminals as specified in your purchase agreement or license activation terms.

The software license is granted strictly to the original purchaser and is bound to the designated account number(s), hardware environment, or activation key provided. License transfers, account reassignment, or sharing without prior written consent from CornGrid is strictly prohibited.

You explicitly agree NOT to, and will not permit any third party to:

- **a) Unauthorized Distribution:** Sell, resell, rent, lease, sublicense, distribute, publish, broadcast, or transfer CornGrid EA or any part thereof to any third party without explicit authorization.
- **b) Reverse Engineering:** Decompile, reverse engineer, disassemble, decrypt, attempt to derive the source code of, or modify CornGrid EA, MQL5 files, compiled binaries (.ex5), or associated licensing mechanisms.
- **c) License Bypass:** Crack, bypass, disable, circumvent, or modify any license validation, hardware locking, account authorization, or security features embedded within the software.
- **d) Modifications:** Create derivative works, modifications, or altered versions of CornGrid EA for personal use, redistribution, or commercial gain.

4. Account & Installation Requirements

The User bears sole responsibility for the setup, configuration, and maintenance of their trading environment. Specifically, the User agrees to and warrants the following:

- **a) Software Compatibility:** Ensuring the MetaTrader 5 terminal is installed, updated, and fully compatible with Expert Advisor execution.
- **b) Broker Conditions:** Selecting a reputable, regulated broker that supports automated EA trading, offers appropriate leverage, manageable spreads, low latency, reasonable swaps, and permits grid/recovery trading strategies.
- **c) Correct Installation:** Ensuring CornGrid EA is correctly installed, configured with appropriate input parameters (set files), and authorized for Automated Trading in the MT5 terminal.
- **d) Infrastructure & VPS:** Maintaining a stable, uninterrupted high-speed internet connection and/or utilizing a dedicated Virtual Private Server (VPS) with high uptime to ensure continuous EA operation.
- **e) Active Monitoring:** Regularly monitoring trading account status, open positions, floating equity, drawdown, and server connections.

5. User Responsibility & Operational Control

You acknowledge and agree that automated trading software requires active supervision and rigorous risk control. The User retains 100% full operational responsibility and complete authority over their trading account.

User responsibilities include, but are not limited to:

- **Account & Capital:** Deposit amounts, capital allocation, account leverage selection, and overall portfolio exposure.
- **EA Configuration:** Input settings, lot sizes, grid step parameters, risk percentages, maximum drawdown thresholds, and stop-loss selections.

- **Third-Party Tools:** Selection of trading broker, account type (ECN/STP/Cent/Standard), execution server, and VPS hosting provider.
- **Risk Oversight:** Proactive risk management, monitoring news events, turning off the EA during extreme market anomalies, and managing floating equity.

6. Absolute No Guarantee of Profit

CornGrid EA makes NO WARRANTIES, PROMISES, OR GUARANTEES, whether express, implied, or statutory, regarding the profitability or success of any trading strategy or trade executed by the software. WITHOUT LIMITING THE FOREGOING, CORNGRID EA DOES NOT GUARANTEE:

- **No Profit Guarantee:** Any monetary profit, return on investment (ROI), or financial gain.
- **No Fixed Returns:** Fixed, consistent, or predictable daily, weekly, monthly, or annual returns.
- **No Capital Preservation:** Preservation of invested capital, deposit protection, or complete immunity from account wipeout.
- **No Performance Cap:** Any specific maximum drawdown level, historical equity curve continuity, or trade win percentage.
- **No Loss Recovery Guarantee:** The full recovery of floating trading losses or negative equity positions through the recovery system.

7. Performance Disclaimer & Market Conditions

Trading results generated by CornGrid EA in historical backtesting, simulated environments, or demo accounts do not represent actual live trading conditions and are not indicative of future performance.

- **Backtesting Limitations:** Backtest metrics rely on historical tick data and simplified market assumptions, which fail to replicate real-time slippage, order routing delays, dynamic broker spreads, variable liquidity, and execution rejections.
- **Demo vs Live Discrepancies:** Demo trading accounts operate under ideal execution conditions without actual order filling in interbank markets. Live account execution differs due to market impact and broker server latency.
- **Execution Realities:** Variable spreads, market slippage, broker commissions, swap fees, news spikes, order latency, and order fill policies directly impact performance and can turn theoretically profitable trades into losses.
- **Changing Market Dynamics:** Financial markets are dynamic, inherently unpredictable, and subject to structural shifts. Past market patterns do not guarantee future price behaviors.

8. Third-Party Services & Infrastructure

CornGrid EA relies on third-party infrastructure, software platforms, and services beyond the control of the Developer. These include, but are not limited to: MetaQuotes (MetaTrader 5 platform), brokerage firms, Virtual Private Server (VPS) hosts, news data providers, internet service providers (ISPs), MQL5 Market infrastructure, and payment processors.

CornGrid shall not be held liable or responsible for any losses, missed trades, order delays, unexpected position closes, or technical failures caused by third-party downtime, server outages, platform updates, broker execution errors, spread widening, internet disconnection, or modifications to third-party services.

9. Refund & Cancellation Policy

All sales, software purchases, and subscription fee payments for CornGrid EA are subject to the following standard policy:

Please review the refund policy stated above carefully prior to purchase. If no refund period is explicitly specified, all digital product purchases, downloadable files, and license activations are non-refundable to the maximum extent permitted by applicable law, due to the immediate digital delivery and non-returnable nature of software licenses.

10. Subscription & License Expiration

Software licenses provided for CornGrid EA may be subject to specific duration limits, terminal activation limits, or recurring subscription schedules as determined at the time of purchase:

Upon the expiration or termination of a subscription or license period, access to automated trading functions within CornGrid EA will automatically cease or be restricted. Renewal terms, extension options, and subscription management shall follow the official billing channels provided by CornGrid.

11. Intellectual Property Rights

All title, ownership rights, intellectual property, trademarks, trade secrets, algorithms, source code, MQL5 files, documentation, graphics, branding, logos, website contents, and promotional materials associated with CornGrid EA are and shall remain the exclusive proprietary property of CornGrid.

Nothing in this agreement conveys any ownership rights to the User. Unlawful copying, re-branding, white-labeling, distribution, or commercial exploitation of CornGrid intellectual property without express written authorization will result in immediate license termination and civil/criminal legal action.

12. Prohibited Activities

Users are strictly prohibited from engaging in any of the following activities:

- **Software Piracy:** Engaging in or facilitating software piracy, illegal file sharing, torrenting, or unauthorized upload of CornGrid EA files.
- **Account / License Sharing:** Sharing license credentials, activation keys, or MT5 account authorizations with unauthorized third parties.
- **System Tampering:** Utilizing reverse engineering, decompilation, memory hacking, or cracking tools to modify software binary behavior.
- **Commercial Exploitation:** Attempting to white-label, rebrand, resell, rent, or distribute modified or unmodified copies of the software.
- **Brand Infringement:** Using CornGrid branding, trademarks, logos, or marketing material without written prior authorization.

13. Updates, Upgrades & Modifications

CornGrid reserves the right, at its sole discretion, to issue software updates, patches, performance improvements, bug fixes, or algorithmic modifications to CornGrid EA. Developers may also modify supported broker conditions, symbol lists, or feature sets, or discontinue deprecated features when deemed necessary for system stability or market adaptability.

Users are encouraged to maintain updated versions of the software. CornGrid is under no obligation to support outdated versions of the EA that have been superseded by official updates.

14. Technical Support Scope

CornGrid provides technical customer support strictly limited to standard operational assistance, including:

- **Installation Guidance:** Assistance with EA file installation, MT5 directory placement, and basic parameter loading.
- **Configuration Clarification:** Explaining input parameter settings, set files, and configuration menus.
- **Technical Troubleshooting:** Diagnosing technical setup issues, error messages, and platform authorization faults.

Technical support DOES NOT include individualized financial advice, trade management on live accounts, market forecasting, or guarantee of trading profits. Rendering technical support shall not be construed as assuming responsibility for User trading losses.

15. Service Availability & Continuity

While CornGrid strives to ensure high software performance and operational stability, uninterrupted or error-free operation of CornGrid EA cannot be guaranteed. Continuous operation is dependent upon external factors including hardware reliability, operating system updates, MT5 platform connectivity, broker server availability, internet connection stability, and market conditions.

16. Limitation of Liability

TO THE MAXIMUM EXTENT PERMITTED BY APPLICABLE LAW, IN NO EVENT SHALL CORNGRID, ITS DEVELOPERS, DIRECTORS, EMPLOYEES, AFFILIATES, AGENTS, OR LICENSORS BE LIABLE FOR ANY DIRECT, INDIRECT, INCIDENTAL, SPECIAL, CONSEQUENTIAL, PUNITIVE, OR EXEMPLARY DAMAGES WHATSOEVER.

THIS LIMITATION INCLUDES, WITHOUT LIMITATION, DAMAGES FOR LOSS OF TRADING CAPITAL, TRADING LOSSES, LOST PROFITS, BUSINESS INTERRUPTION, LOSS OF DATA, BROKER EXECUTION FAILURES, SLIPPAGE, SPREAD WIDENING, HARDWARE OR SOFTWARE FAILURE, INTERNET DISCONNECTION, VPS OUTAGES, UNEXPECTED MARKET VOLATILITY, MARKET GAPS, OR ANY OTHER FINANCIAL LOSSES ARISING OUT OF THE USE OR INABILITY TO USE CORNGRID EA.

17. Indemnification

You agree to defend, indemnify, hold harmless, and release CornGrid, its developers, operators, employees, agents, and affiliates from and against any and all claims, demands, liabilities, damages, losses, costs, or expenses (including reasonable legal fees) arising from or related to: (a) your use or misuse of CornGrid EA; (b) your breach of any provision of these Terms & Conditions; (c) trading decisions, execution, or losses on your trading accounts; or (d) your violation of any third-party rights or applicable financial laws.

18. License Termination

CornGrid reserves the right to immediately suspend or terminate your software license and revoke product access without notice or refund if you breach any term of this agreement, engage in software piracy, attempt unauthorized distribution, reverse engineer the product, abuse support channels, or engage in fraudulent activities. Upon termination, you must cease all use of CornGrid EA and delete all copies from your computers and servers.

19. Amendments & Changes to Terms

CornGrid reserves the right to modify, update, or revise these Terms & Conditions and Risk Disclosure Policy at any time. Updated versions will be published on official distribution channels and website portals. Your continued use of CornGrid EA following the posting of modifications constitutes full acceptance of the updated terms.

20. Governing Law & Jurisdiction

Governing Law: [INSERT JURISDICTION]

This agreement shall be governed by, construed, and enforced in accordance with the laws of the jurisdiction specified above, without regard to its conflict of law principles. Any legal dispute or claim arising from this agreement shall be submitted to the exclusive jurisdiction of the competent courts in said jurisdiction.

21. Official Contact Information

For legal inquiries, technical support, or license verification, please reach out through official channels:

SECTION 2 — CORNGRID EA RISK DISCLOSURE & RISK POLICY

> **HIGH-RISK FINANCIAL WARNING:** TRADING FOREX, FINANCIAL DERIVATIVES, CFDS, AND SPOT GOLD (XAUUSD) INVOLVES AN INHERENTLY HIGH DEGREE OF RISK AND MAY RESULT IN THE TOTAL LOSS OF YOUR INVESTED CAPITAL. DO NOT TRADE WITH CAPITAL YOU CANNOT AFFORD TO LOSE.

1. General Financial Market Risk

Trading foreign exchange (Forex), Contracts for Difference (CFDs), metals (Gold/XAUUSD), and leveraged financial instruments carries extreme financial risk. Market prices are driven by complex global macroeconomics, central bank decisions, political events, and market sentiment, making them highly volatile and unpredictable.

Leveraged trading enables market participants to control large position sizes with relatively small margin deposits. While leverage can magnify trading gains, it equally magnifies market losses. Price movements against your position can lead to rapid capital depletion, margin calls, or complete liquidation of trading account funds.

2. Automated Trading Systems Risk

Automated trading software (Expert Advisors) executes trades automatically based on pre-programmed computer code, mathematical logic, and incoming price ticks. Automated trading introduces specific technical and operational risks that Users must thoroughly understand:

- **Programmed Logic Risk:** EAs execute rules dispassionately; unexpected market spikes can trigger multiple automated entries rapidly, escalating account exposure.
- **Execution Latency & Slippage:** High volatility or rapid price jumps can lead to significant execution latency, resulting in trades being filled far from intended price levels (slippage).
- **Spread Widening & Liquidity:** Spreads can widen dramatically during rollover hours, low liquidity periods, or news releases, triggering premature stop-outs or unexpected trade entries.
- **Technical & Infrastructure Failures:** Hardware crashes, operating system freezes, MT5 client disconnects, internet disruptions, or VPS downtime can interrupt EA execution, leaving open trades unmanaged.
- **Parameter Configuration Error:** Incorrect lot size inputs, misconfigured parameters, or incorrect set file loading by the User can lead to immediate catastrophic account losses.

3. Specific Grid & Recovery Strategy Risk

CornGrid EA utilizes a Smart Reverse Grid Recovery System. Grid and recovery strategies carry unique structural financial risks that every User MUST fully comprehend prior to deployment:

- **Position Scaling:** When the market moves persistently against an open position, grid algorithms open additional orders at structured price intervals to average the entry price.
- **Exponential Drawdown:** In strong, sustained one-way trending markets without market pullbacks, grid positions accumulate rapidly. This exponentially increases total volume, margin utilization, and floating drawdown.
- **Margin Call & Stop-Out Risk:** Accumulating open grid positions requires substantial margin backing. If market adverse movement continues, free margin rapidly diminishes, leading to broker margin calls or automated stop-outs.

- **Total Capital Loss:** If open floating losses exceed total account equity, the entire trading account balance can be liquidated and lost in a short timeframe.

Users MUST NOT assume that grid recovery strategies will always successfully close positions in profit. Unprecedented market trends can severely exceed historical drawdown limits and result in 100% account loss.

4. Leverage & Margin Risk

High leverage acts as a double-edged sword. Utilizing high leverage (e.g., 1:500, 1:1000 or higher) alongside grid recovery trading drastically elevates account risk. While high leverage lowers initial margin requirements per trade, it enables the EA to build large total position exposures that can wipe out equity rapidly during market shocks.

5. News Events & Market Volatility

Financial markets experience extreme volatility, price gaps, and severe liquidity drops during high-impact economic news releases (e.g., US Non-Farm Payrolls [NFP], Consumer Price Index [CPI], Interest Rate Decisions, FOMC, geopolitical conflicts, and central bank speeches).

Although CornGrid EA incorporates built-in News Filter mechanisms designed to halt trading around major news events, THE USER ACKNOWLEDGES THAT NO NEWS FILTER CAN GUARANTEE COMPREHENSIVE PROTECTION. News data feeds may experience delays, unexpected unscheduled news events may occur, or broker price gaps may bypass news filter boundaries, leading to trading losses.

6. Broker Execution & Environment Discrepancies

Live trading performance varies significantly across different brokerage firms due to structural execution differences:

- **Execution Metrics:** Different brokers offer varying spread models (floating vs fixed), latency, server speeds, slippage policies, and commission structures.
- **Swap Rates & Rollover:** Overnight swap rates (rollover charges) can accumulate heavy negative interest on multi-day grid positions, eroding account equity.
- **Broker Restrictions:** Certain brokers impose maximum order limits, leverage restrictions during news, or specific restrictions on grid/martingale/hedging EAs.

7. Backtesting & Historical Data Disclaimer

Backtest results produced using MetaTrader 5 Strategy Tester are hypothetical and constructed using past price data. Backtest results HAVE INHERENT LIMITATIONS because they do not reflect actual financial risk, liquidity constraints, slippage, real-time spread expansion, or human emotional factors. HISTORICAL PERFORMANCE IS NO GUARANTEE OF FUTURE TRADING RESULTS.

8. Demo Account vs Live Trading Realities

Simulated or demo trading accounts provide a zero-risk testing environment but DO NOT fully reflect real live trading conditions. Demo environments feature perfect order fill speeds, zero slippage, artificial liquidity, and lack real market order book impact. Performance achieved on demo accounts will rarely be identical to live capital trading.

9. Capital & Risk Management Principles

CornGrid strongly strongly advises all Users to observe strict capital risk management guidelines:

- **Risk Capital Only:** NEVER trade with capital, savings, or funds you cannot afford to lose completely.
- **Conservative Sizing:** Avoid excessive account leverage; select conservative lot sizing relative to account balance.
- **Demo & Forward Testing:** Always perform extensive forward testing on demo accounts or low-risk cent accounts prior to risking significant live capital.
- **Parameter Familiarity:** Understand every input parameter, grid distance, multiplier, and safety stop setting within CornGrid EA prior to live execution.
- **Active Supervision:** Continuously monitor account floating equity, open grid exposure, and overall margin levels.

10. Absolute No Financial Advice Disclaimer

CornGrid, its developers, operators, and distributors ARE NOT REGISTERED FINANCIAL ADVISORS, BROKERS, OR INVESTMENT MANAGERS. CornGrid EA is purely technical software. Nothing contained within this document, software, website, or support communication constitutes financial, investment, legal, or tax advice. Users are solely responsible for conducting independent research and consulting licensed financial advisors before undertaking live trading.

11. User Risk Acknowledgement & Acceptance

By signing below or electronically activating, purchasing, downloading, or executing CornGrid EA, you explicitly confirm and declare that:

- **1. Terms Acceptance:** I have read, fully understood, and accepted the CornGrid EA Terms & Conditions and Risk Disclosure Policy.
- **2. Risk Comprehension:** I fully understand the inherent severe risks of leveraged trading and grid recovery algorithms, including total account loss.
- **3. Sole Responsibility:** I accept 100% sole responsibility for my trading decisions, account management, lot sizing, broker selection, and financial losses.
- **4. No Profit Guarantees:** I confirm that CornGrid EA has made no profit guarantees or safety promises regarding my capital.

SECTION 3 — IMPORTANT LEGAL DISCLAIMER FOR LEGAL REVIEW

This official document is designed and drafted to establish the terms of software usage, licensing limitations, and legal risk disclosures for CornGrid EA. It serves as a comprehensive corporate agreement template suited for website integration, MQL5 product listings, software onboarding, and commercial licensing.

THIS DOCUMENT IS NOT A SUBSTITUTE FOR INDIVIDUALIZED LEGAL OR FINANCIAL ADVICE FROM A QUALIFIED ATTORNEY OR FINANCIAL PROFESSIONAL. THE FINAL VERSION OF THIS DOCUMENT SHOULD BE REVIEWED, ADAPTED, AND APPROVED BY A QUALIFIED LEGAL PROFESSIONAL IN YOUR RELEVANT OPERATING JURISDICTION BEFORE BEING PUBLISHED OR USED AS A LEGALLY BINDING AGREEMENT.
